DIRECTOR – HISPANICS FOR CHRIST

MAY 2025

SENDING WHERE WE CAN'T GO

Praises

- We are grateful for the networks we have among Latin American pastors.
- We have seen our first students graduate from Kairos/HFC and new students applying weekly.

Prayer

- We still need support to expand our Bible Institute and help with scholarships for Kairos/HFC.
- For a training summit in November in Northern Argentina covering recovery ministries in the church, spiritual care for the pastors, and how to reach the unreached communities in Northern Argentina.
- For more partner churches who will work with and support these men.

*Him we proclaim, warning everyone and teaching everyone with all wisdom,
that we may present everyone mature in Christ.*

COLOSSIANS 1:28 (ESV)

Cuba

Jesús Rivas is our pastor serving in University Place, Washington. He shepherds the Hispanic group at Olympic View Baptist Church. Jesús is originally from Cuba and returns regularly to visit family there and plant new churches!

Over the last five years, Jesús has planted eight churches there and continues to direct and disciple the pastors

leading those churches. These are small house churches, as the Cuban government won't allow new churches to construct buildings to worship in.

Even with the restrictions and financial hardships, these pastors are preaching

the Word, baptizing new believers, and discipling new leaders.

Pastor Jesús has been supporting these pastors financially, as well as with training and encouragement. They each receive \$25 a month, which makes a big difference in their context. We would like to double this and allow these men to share the Gospel and make disciples in a place where we can't send missionaries.

Venezuela

Pastor Lucio Gallo (Fundación ESEF) works with HFC in Salta, Argentina. He has been planting churches there for almost ten years. He now has four churches, a Bible Institute, and a Christian camp. Over the last few years, he has been working with a Venezuelan pastor, Giovanni Conde. Pastor Giovanni has been given a property in Venezuela he hopes to use as a missionary training center. He has already begun church planting and raising up leaders in a country we are unable to work in today.

We are praying for a partnership between a few NAB churches, HFC, ESEF, and Pastor Giovanni to see this training center developed. Church planters would be prepared there, missionaries sent from there, and local young people disciplined for serving in their churches. This is another country where we can best do Kingdom work through a partnership, as we cannot enter.
