

Philippines – Business-as-Mission Missionary

Job Description:

We are inviting believers with professional and livelihood skills who would like to invest and bless Filipinos in practical ways. Start up a self-sustaining ministry using your skills through a Business as Mission (BAM) where business in your field of interest or expertise becomes your platform for local outreach (e.g., vocational training school for fields like cooking, baking, metal works, arts, farming, etc.; pet grooming shop; parlor; sports facility; creation care and plastic recycling shop; vegan kiosk or restaurant; clinic; etc.). Hire Filipino believers and mentor them for Christ (help keep Christian ministry workers in their hometown by providing employment and help their churches grow as they stay to serve in their local churches.) A BAM is an organic (more natural) way to bring Christ to and build relationships with locals who naturally come for the services it gives. The Christian employees can be mobilized to minister to the customers and the community as well.

- Long term: 1–3 years (short-term exposure of 2–3 months is required)

Responsibilities:

- Start up a small business in your profession or livelihood skills or passion.
- A BAM is your creative and organic platform for ministry (to reach locals for Christ) and for God's Kingdom purposes.
- Hire a team of Filipino Christians who will be your ministry team as well.
- Live in the local community.
- Learn the culture and local language.
- Serve and bless the local community with skills that will help them get a job or start their own livelihood.
- Bring Jesus in people's lives through the quality, trusting relationships that you build, as well as creative ways of sharing your faith.
