

Philippines – Church Planter

Job Description:

Legazpi, capital city of the Albay province, is the administrative, educational, and economic hub of the Bicol Region in the Philippines. An exciting new opportunity to plant an English language international church along with our local ministry partner has recently emerged. The church will serve as a center of missional outreach in a region that has been described as “the least evangelized, most Gospel-resistant” part of the country. An evangelistic outreach among international students from India studying in the city has been growing over the past years. Students from our partner’s ministry training school have been sent out to other Asian countries to preach the Gospel.

This is an exciting opportunity to plant and pastor an international church in a key city in Southeast Asia. You will be part of a network of people engaged in cross-cultural ministries among Muslims, Hindus, and Buddhists. Your training, experience, and skills in preaching, shepherding, building community, missional living, and cross-cultural engagement will be put to effective use in this opportunity to invest in the lives of the local community and mobilizing many for Kingdom work in other nations. You will join and work alongside a group of Jesus followers eager to serve together with you to plant an international church in their city.
